PROFESSIONAL SUMMARY

Flutter Developer with 2+ years of experience building and maintaining production-level mobile applications. Strong background in Flutter (Dart) and Android (Java), with hands-on experience in REST and GraphQL API integration, state management (BLOC, GetX), and scalable mobile architecture. Delivered multiple live applications on Google Play Store and Apple App Store, including e-commerce solutions

PROFESSIONAL EXPERIENCE

- Webkul** Jan-2025 - Sep-2025
Flutter Developer
 - Developed and maintained Magento 2-based Flutter mobile applications deployed on Google Play Store and Apple App Store.
 - Implemented REST and GraphQL APIs for scalable data handling and performance optimization.
 - Used BLOC and GetX for structured state management and improved app stability.
 - Worked on authentication flows, CRUD modules, admin-driven UI updates, and end-to-end feature delivery.
- Roundpay Voice Tech** Jan-2024 - Dec-2024
Mobile Application Developer
 - Developed Android applications using Java, XML, Room Database, and REST APIs.
 - Built offline-first features and optimized local storage using Room.
 - Contributed to Flutter-based cross-platform development with a focus on reusable components and clean architecture.
- APTRON** July - August-2022
Java Intern
 - Completed internship in Core and Advanced Java covering OOPS, JDBC, and backend fundamentals
 - Worked with HTML, CSS, JavaScript, Bootstrap, and MySQL for basic web modules.

KEY PROJECTS

- Leader Sport(Flutter)**
 - Production-ready e-commerce app (Live on Play Store)
 - Built using Flutter & Dart with RESTful API integration.
 - Features: user login, product catalog, cart, search, and responsive UI.
 - Handled state with BLOC for scalable and maintainable code.
 - Play Store:** <https://play.google.com/store/apps/details?id=com.leadersport.android>
- Itenis (Flutter)**
 - Live on Google Play Store
 - Developed UI screens, backend API integration, and data management using BLOC.
 - Successfully deployed and maintained on the Play Store.
 - Play Store:** <https://play.google.com/store/apps/details?id=com.itenis.android>
- Shree NM (Flutter)**
 - Production app on Play Store
 - Designed and implemented core app functionality with API connections and optimized state handling.
 - Ensured performance and UI consistency across devices.
 - Play Store:** <https://play.google.com/store/search?q=shree%20nm&c=apps>
- Flipkart Clone (Android)**
 - Developed an Android-based Flipkart clone using APIs for product listings.
 - Integrated Firebase Authentication with OTP and Google Sign-In.
- Login and Note App (Flutter)**
 - Developed Flutter app with login and note management using API-based CRUD operations.

TECHNICAL SKILLS

- Languages: Dart, Java
- Mobile: Flutter, Android(XML)
- State Mangement: BLoC, GetX
- APIs & Backend: REST, GraphQL, Firebase
- Database: SQLite, Shared Preferences, Room
- Tools: Android Studio, Git, Postman, VS Code

EDUCATION

- **Bachelor of Technology (CSE)**
Babu Banarasi Das University
First Devision 2023

ACHIVEMENTS & CERTIFICATIONS

- I have completed the TCS iON Career Edge - Young Professionals course and successfully achieved the certificate.
- I won first prize in college fest by making Light Follower Car.
- I have done a internship certification course on Core and Advanced Java by Apttron.
